

SMART SAVINGS REBATE PROGRAM

In 2012, Meade County RECC launched its energy efficiency education program, Smart Savings, to help our members save on energy dollars and become more energy efficient. This program encountered great success, giving away over \$1.5 million in energy efficiency rebates and helping customers save nearly 7 million kWh since the inception of the program.

However, due to the abundance of energy efficiency products in the marketplace along with the energy reduction goals we achieved during the past 6 years, Meade County RECC plans to discontinue a portion of the less cost-effective programs at year-end.

We will continue to honor the program in its entirety, until the end of 2018.

Starting in 2019, we will only offer the rebates that yield the greatest long-term financial rewards, which are **High Efficiency Heating & Air Conditioning (HVAC)** and the **High Efficiency Lighting** for residential and commercial applications.

NOTICE OF FILING
